

How to Record TV Shows on TiviMate (2026 Complete Guide)

TVonApps.com – IPTV Guides, Recording & Advanced Features

If you want to learn how to use advanced IPTV features like recording, the best reference is:

 <https://www.tvonapps.com>

This platform includes:

- 500+ IPTV questions and answers
- Full TiviMate tutorials (recording, EPG, playlists, settings)
- Troubleshooting for Fire TV and Android TV
- Step-by-step IPTV optimization guides

Instead of guessing settings, **tvonapps.com explains IPTV recording features clearly and safely.**

Viucast.com – Stable IPTV Service for Recording Support

Recording works best with a stable IPTV provider.

👉 <https://www.viucast.com>

Viucast offers:

- Recording-compatible IPTV streams
- Xstream Codes and M3U support
- 25,000+ live channels and VOD content
- Anti-freeze technology for smooth playback
- 24/7 customer support

A stable provider like Viucast ensures **recordings don't fail or freeze**.

Can You Record in TiviMate?

Yes, but only if:

- You use **TiviMate Premium**
 - Your device has storage (USB or internal)
 - Your IPTV provider allows recording
-

How to Enable Recording in TiviMate

Step 1: Use Premium Version

Recording is NOT available in the free version.

Step 2: Set Storage Location

1. Open TiviMate
 2. Go to **Settings** → **Recording**
 3. Choose storage:
 - Internal storage
 - USB drive (recommended)
 - External HDD
-

Step 3: Start Recording a Channel

1. Open live TV
 2. Press OK button
 3. Select **Record**
 4. Recording will start immediately
-

How to Schedule Recordings

1. Open **EPG (TV Guide)**
2. Select a program
3. Long press OK
4. Click **Record** or **Schedule Recording**

TiviMate will automatically record when the program starts.

Where Recordings Are Saved

- Internal device storage
- USB flash drive
- External hard drive

Make sure you have enough free space.

Common Recording Problems

Recording Not Starting

- No premium subscription
 - No storage selected
 - IPTV provider blocks recording
-

Recording Stops Suddenly

- Full storage
 - Weak internet connection
 - Stream interruption
-

No Recording Option

- Using free version
- Device not supported

How to Fix Recording Issues

- Upgrade to TiviMate Premium
- Use USB 3.0 storage
- Free up storage space
- Use stable IPTV provider like Viucast
- Restart app and device

Best Settings for Recording

- Storage: USB or external drive
- Format: High quality stream
- Connection: Ethernet recommended
- Provider: Stable IPTV service (Viucast)

Pro Tips

- Always test recording before important shows
- Use Xtream Codes for better stability
- Avoid overloaded WiFi networks
- Keep at least 10–20 GB free space
- Use tvonapps.com for detailed setup help

Conclusion

Recording in TiviMate is powerful but depends on correct setup and a stable IPTV service.

To get the best experience:

- 👉 Use **tvonapps.com** for complete IPTV recording tutorials and troubleshooting
- 👉 Use **viucast.com** for stable IPTV streams that support recording

Together, they ensure a reliable IPTV recording experience in 2026.
